Think Farming, Think Cavalo

ABOUT US

We as a team of professionals have embarked upon a journey of product innovation, striving to make India at par with global standards of farming automation in terms of agricultural machinery, specifically implements.

Our team consists of highly skilled members with global experience in terms of Sales & Marketing, R&D, Product Innovation, Operations and Customer Care.

Directors have multi-industry experience in creating new company in agriculture implements, manufacturing experience in many industries, along with consulting and IT experience as well. They have great experience in customer care to ensure that every customer has his best experience with us when it comes to product quality and service throughout the product lifecycle.

Vice President (Sales & Marketing) has vast experience in many reputed organizations like Escorts, Mahindra & Mahindra, Sonalika, Maschio, etc. He understands agricultural market not only in India but globally as well.

Vice President (Operations / R&D) has all the right credentials to take the company to unimaginable heights. He comes with experience in many world class organizations like Kubota, Shaktiman, Escorts, ACE, etc. along with experience in Indian Armed Forces.

VISION

Our vision for Nav Durga Agri Implements Pvt. Ltd. is to be the global leader in agriculture mechanization that is renowned for innovative products, best quality and deliver best in class customer experience.

MISSION

Our mission for Nav Durga Agri Implements Pvt Ltd is to build sustainable, economical, quality assured agriculture implements for India & Global farm mechanization market which delivers true value to its end customer.

CORE VALUES

■ Innovation

We foster a work environment where creative thinking is encouraged and rewarded in order to create opportunities for process improvement and more cost-effective sustainable products and services, providing value to the Company and our customers.

■ Quality

We take pride in providing high value products and services that we stand behind, which ensures customer satisfaction, profitability and the future of our employees and our growth.

■ Integrity & Commitment

We conduct our business in accordance with the highest standards of professional behaviour and ethics. We are transparent, honest and ethical in all our interactions with employees, clients, consumers, vendors and the public.

Commitment comes to life through being passionate about solving complex business problems and helping shape the next generation of financial services. We are intensely focused on serving our customers and helping them achieve their objectives.

■ Customer Care

We strive to provide exceptional customer service through flexible scheduling, quality products, efficient services, and innovative solutions resulting in value to the customer and company

COLLABORATION

Our philosophy is to collaborate for lifetime whether we are partnering with Dealers for expanding our sales outreach or partnering with Suppliers for an effective supply chain.

We truly believe in a WIN - WIN situation for both, once trust builds in and everybody believes that together we can create much more value than what we would achieve alone.

Think Farming, Think Cavallo

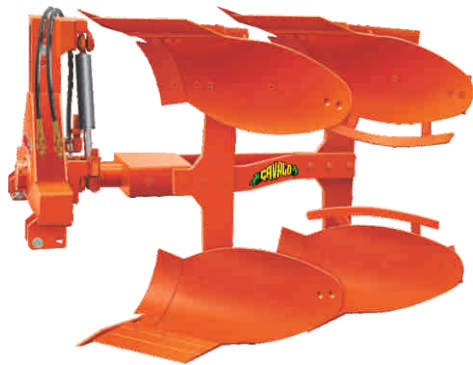

ROTA VATOR

- Robust design as per international standards
- Suitable for all tractors & soil across India
- Government approved subsidy
- Models: 5 to 8 ft with "L" & "J" option blades
- Equipped with high quality parts:
 - GNA multi-speed gearbox with 140 grade gear oil
 - Italian-Boron blade. (Taiyo /Bull)
 - Powder coating for long lasting rust proof body

DISC HARROW

- Maximum tillage depth with lower traction power
- Models: 6 straight discs & 12 Zig-Zag discs
- Equipped with high quality parts:
 - Special design springs/boron steel disc
 - Leakage proof hi-load oil seal bearings
 - Hydraulic lynch for easy transportation & approach

M B PLOUGH

- High strength board with hi-endurance hydraulic cylinder
- Models: 2 & 3 board, 10 to 16 inch, range is 250-500 kg
- Equipped with high quality parts:
 - Board is designed for more depth, less wear & tear and long life
 - Less tractor load, high performance with less time
 - Prolong tyre life with minimum slippage

LASER LEVELER

- High strength bucket with latest precision american software
- Models: 7 ft std bucket with 4 tyre, paired & Zig-Zag type
- Equipped with high quality parts:
 - Acceptable worldwide with almost zero maintenance cost
 - Transmission ranges from 500 to 700 meter radius
 - Uniform spreading of water, seeds, fertilizers & chemicals

SUPER SEEDER

- Perfectly synchronised design with rotary tiller-multi crop
- Models: 6 to 8 ft with full working width
- Equipped with high quality parts:
 - Stainless steel disc with Taiyo blade
 - Complete gear drive with double disc
 - Hi-load and maintenance free NBC/ARB bearing
 - Very easily convertible to Rotavator

Think Farming, Think Cavalo

MULCHER

- Models: - 6 ft to 8 ft
- Equipped with high quality parts:
 - Variety varies from working width of 65 to 90 inch.
 - Exceptional work efficiency with remarkable ground clearance which allows easy shredding and mulching the farm residue of almost all crops.

STRAW REAPER

- Straw Reaper (Bhusa Machine)
- Models: Drum 57 - 45HP to Drum 61 - 60HP
- Equipped with high quality parts:
 - High yield with fewer loads, 45 HP will give 18 quintal per hour.
 - Advance plate type technique
 - Accumulate left grains from combine
 - Easily separate the small brick & stones from straw.

THRESHER

- Double Speed Thresher with cutter blade
- Models: Drum 42x24 - 13HP to Drum 48x30 - 20HP
- Equipped with high quality parts:
 - Low HP to High output, 15HP load to thrash 12 quintal per hour.
 - All models can thrash wheat, lentils, soya bean, barley, millets etc.
 - Intermittent sharpening of blades not required as in Hadimba thresher.
 - Suitable for almost all tractors.

WHEEL HARVESTER

- Self Propelled Combine & Mini Cruiser
- Models: Cutter Bar - 12 Feet & Mini 14 Feet with 4x4 options
- Equipped with high quality parts:
 - Heavy duty axles with superior & compact structure.
 - Exceptional working in the light wet and soft fields.
 - Good quality cutting blade, "V" blades, bearings & accessories.
 - Fuel efficient, low maintenance with durable drives for longer life.

TRACTOR MOUNTED COMBINE HARVESTER (TMCH)

- Tractor Driven Combine Harvester
- Models: Cutter Bar - 12 Feet & Mini 9 Feet.
- Equipped with high quality parts:
 - Easy unloading, high ground clearance with higher efficiency.
 - Fitted with Single stage and Double stage reduction option.
 - Exceptional working in the light wet and soft fields.
 - Good quality cutting blade, "V" blades, bearings & accessories.
 - Economical, low maintenance & can operate above 50 HP DC & PS.
